- Made of mild steel/aluminium/stainless tubes with telescopic height adjustment.
- Velcro strapping allows firm grip on elbow, which in turn means more convenience to the patient.
- Superior quality plastic bushes to reduce friction between upper and lower tube and also inner bush between tubes to arrest shaking between tubes.
- Heavy duty rubber bush for better grip on any surface.
- Available in powder coated mild steel/stainless steel and powder coated/anodized aluminium.
- Size: Adult and children

STATIC WALKER

- These walkers are made from steel tubes.
- PVC Hand grips provide additional patient comfort.

Used for:

- Early ambulation for post operative conditions
 - Gait training for people using Prosthesis / Orthosis.
 - Hemiplegic patients
 - Geriatric patients
-
- Heavy duty rubber bush for better grip on any surface.
-
- Size: Children - 25 inches.
Medium - 29 inches.
Adult - 33 inches.
Extra long - 38 inches.

ADJUSTABLE HEIGHT STATIC WALKER

- These walkers are made from coated/chrome plated Mild steel tubes with telescopic height adjustment.
- Early ambulation for post operative conditions.
- Gait training for people using Prosthesis / Orthosis.
- Hemiplegic patients.
- Geriatric patients.
- Superior quality plastic bushes to reduce friction between upper and lower tube and also inner bush between tubes to arrest shaking between tubes.
- Heavy duty rubber bush for better grip on any surface.
- Size: Children 25 inches to 28 inches.
Adult 33 inches to 36 inches

QUADRIPOD

MS

SS

ABOUT THE QUADRIPOD

- Made of mild steel/aluminium/stainless steel tubes with telescopic height adjustment.
- Large base design, low-profile and center of gravity provides additional strength and stability.
- Unidirectional design allows use for left and right-handed people
- Lowered center of gravity gives better balance
- Vibra-Lok silencer eliminates all rattled and vibrations
- Height adjust 8" in 1" increments from 31" to 39"

Ideally suited for:

- Hemiplegic patients who need wider space for support for ambulation.
 - People with degenerative arthritis and other disabilities of hip and knee.
 - Elderly patients who need better support and stability.
-
- Available in powder coated mild steel/stainless steel and powder coated/anodized aluminium.
 - Superior quality plastic bushes to reduce friction between upper and lower tube and also inner bush between tubes to arrest shaking between tubes.
 - Heavy duty rubber bush for better grip on any surface.

STRAIGHT STICK

MS

SS

ABOUT THE STRAIGHT STICK

- Made of mild steel/aluminium/stainless steel tubes with telescopic height adjustment.
- Plastic handle for better grip.

Ideally suited for:

- Patients with bilateral lower limb orthosis.
- Elderly patients who need better support and stability.
- Amputees with artificial legs.

- Available in powder coated mild steel/stainless steel and powder coated/anodized aluminium.

- Superior quality plastic bushes to reduce friction between upper and lower tube and also inner bush between tubes to arrest shaking between tubes.

- Heavy duty rubber bush for better grip on any surface

FOLDING STICK

- This walking stick flips out into a rigid position and then folds away easily in four sections.
 - The folding stick is adjustable to five positions.
 - Adjustable Height.
 - Ideal for reliable support without the cumbersome carrying of a fixed stick.
 - The lightweight aluminium stick can be adjusted to five height positions and has a moulded T-shaped handle for excellent grip and support.
- Folds away neatly (12")
- Adjustable height 33½" - 37½" fully extended
 - Firm grip handle
 - Inner bush between tubes to arrest shaking between tubes.
 - Heavy duty rubber bush for better grip on any surface.

TRIPOD

MS

SS

ABOUT THE TRIPOD

- Made of Mild steel/aluminium/stainless steel tubes with telescopic height adjustment.

Ideally suited for:

- Hemiplegic patients who need wider space for support for ambulation.
 - People with degenerative arthritis and other disabilities of hip and knee.
 - Elderly patients who need better support and stability.
-
- Available in powder coated mild steel/stainless steel and powder coated/anodized aluminium.
-
- Superior quality plastic bushes to reduce friction between upper and lower tube and also inner bush between tubes to arrest shaking between tubes.
-
- Heavy duty rubber bush for better grip on any surface

BOLTNUT WALKER

UNASSEMBLED

ASSEMBLED

FIXED WHEEL CHAIR

- Cross braces add strength and durability
- Dual axle positions allow variation of seat-to-floor heights
- Durable, low-maintenance, chrome-plated, carbon steel frame or stainless steel
- frame which is long-lasting
- Rear tires, mounted on "no flex" wheels, offer superior performance
- Its flexibility keeps all four wheels on the ground on rough surfaces
- Has swing-away leg rests, where rigid frames have fixed front ends
- Available in mild steel powder coated and stainless steel

Optional:

- Detachable arms.
- Commode arrangement.

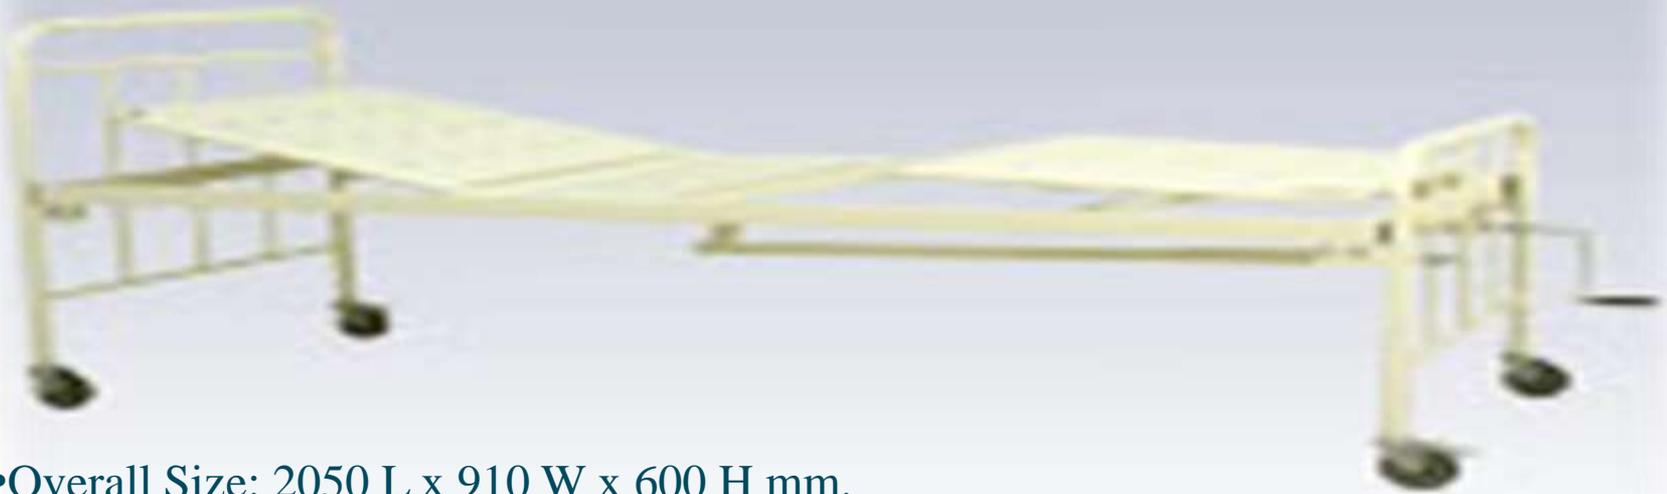

HOSPITAL FURNITURES

PLAIN COT

- Size: 198 L x 90 W x60 H Cm.
- Main frame of rectangular pipe CRCA sheet top.
- Tubular head and foot bow of unequal height.
- Mounted on rubber stump.
- Epoxy powder coated finish. Also available in stainless steel.

FOWLER BED

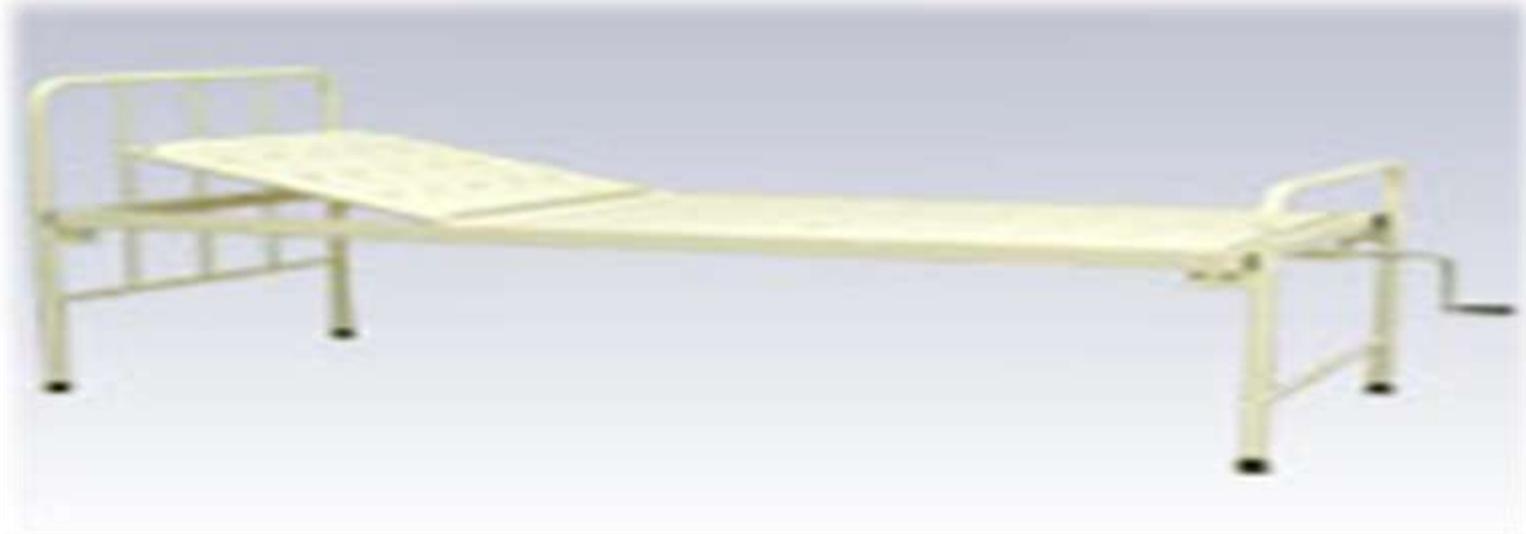

- Overall Size: 2050 L x 910 W x 600 H mm.
- Suitable for mattress size: L 1980 x W 910mm.
- Frame work of precise steel tubes.
- Four section top of CRCA sheet.
- Backrest and knee rest section maneuvered by crank mechanism from the foot end.
- Tubular head and foot bows of unequal height mounted on 100 mm diameter swiveling castors with two brake.
- Location for saline rod.
- Epoxy powder coated finish.
- Also available in stainless steel.
- Electrically operated.

FOWLER BED LAMINATED PANEL WITH SS BOWS

- Overall Size: 2160 L x 015 W x 600 H mm.
- Suitable for mattress size: 1980 L x 910 W.
- Four section top of CRCA sheet.
- Backrest and knee rest section maneuvered by two crank mechanism from the foot end.
- Laminated panel fitted with S.S bows.
- 100 mm diameter swiveling castors with two brake.
- Location for saline rod.
- Epoxy powder coated finish.
- Also available in stainless steel.
- Electrically operated.

SEMI FOWLER BED

- Size: 200 L x 90 W x 60 H Cm.
- Mainframe of rectangular pipe.
- Two section top of CRCA sheet.
- Backrest section maneuvered by crank mechanism from the foot end.
- Tubular head and foot bows of unequal height mounted on rubber stump.
- Provision for saline location and safety side railing.
- Epoxy powder coated finish. Also available in stainless steel.
- Electrically operated.

SEMI FOWLER LAMINATED PANEL WITH SS BOWS

- Overall Size:2160 L x 1015 W x 600 H mm.
- Suitable for mattress size: L 1980 x W 910 mm.
- Two section top of CRCA sheet.
- Backrest section maneuvered by crank mechanism from the foot end.
- Laminated panel fitted with S.S bows.
- The bed is fitted with 100 mm diameter swiveling castors with two brake.
- Location for saline rod.
- Epoxy powder coated finish.
- Also available in stainless steel.
- Electrically operated.

EXAMINATION CUM GYNAEC COUCH

- Size: 183 L x 60 W x 76 H cm.
- Top of double bent m.s. sheet in two sections.
- The head flap adjustable on rack.
- Leg end provided with remove able basin and lithotomic rods.
- Finish in epoxy powder coated.
- Also available in stainless steel.

THREE SECTION GYNAEC COUCH

- Size 180 L x55w x 81h cm.
- Constructed from ms tubing.
- Adjustable head and leg section.
- Top is upholstered and covered with Cushioned.
- Complete with stainless steel Bowl 32 cm diameter and two adjustable leg rests.
- Finish in epoxy powder coated.
- Also available in stainless steel.

BED SIDE LOCKER

- Size: 40 cm Square x 82 H Cm.
- Machine pressed ms sheet box with door having ventilating louvers, Bakelite knob.
- Stainless steel top assemble on tubular legs.
- Finish in epoxy powder coated.
- Also available in complete stainless steel.

OVERBED / MAYO'S TABLE

- Laminated board top size: 75x40 cm.
- Mild steel Tubular framework mounted on four 5 cm swiveling castors.
- Height adjustable manually.
- Finish in epoxy powder coated.
- Also available in stainless steel.

FOOTSTEP

SINGLE

•Size:460 L x 250 W x 230 W mm.

•Tubular ms steel frame work mounted on rubber shoes.

•Finish in epoxy powder coated.

•Also available in stainless steel.

DOUBLE

•Size:460 L x 510 W x 460 H mm.

•Tubular ms steel frame work mounted on rubber shoes.

•Finish in epoxy powder coated.

•Also available in stainless steel.

BED SIDE SCREEN

- Size:168 h x 244 W cm.
- Ms tubular steel construction in four fold (also available in three fold) with curtain wire and hook.
- Mounted on swiveling castors 50mm diameter.
- Finish in epoxy powder coated.
- Also available in stainless steel.

WASH BOWL

SINGLE

- Height 84 cm with SS Bowl single.
- MS tubular frame work mounted on 5cm diameter swiveling castors.
- Finish in epoxy powder coated.
- Also available in stainless steel.

DOUBLE

- Height 84 cm with two SS Bowl.
- MS tubular frame work mounted on 5cm diameter swiveling castors.
- Finish in epoxy powder coated.
- Also available in stainless steel.

I V STAND SS WITHOUT WHEELS

- Strong SS tubular construction mounted on Plastic base fitted with three swivel castors, 50mm diameter.
- Rod with double hooks height adjustable from approx 1220 to 2340 mm.
- Finish in epoxy powder coated.
- Also available in mild steel tubular construction.

I V STAND MS WITH WHEELS

- Strong Ms tubular construction mounted on Plastic base fitted with five swivel castors, 50mm diameter.
- Rod with double hooks height adjustable from approx 1220 to 2340 mm.
- Finish in epoxy powder coated.
- Also available in stainless steel tubular construction.

BACK REST

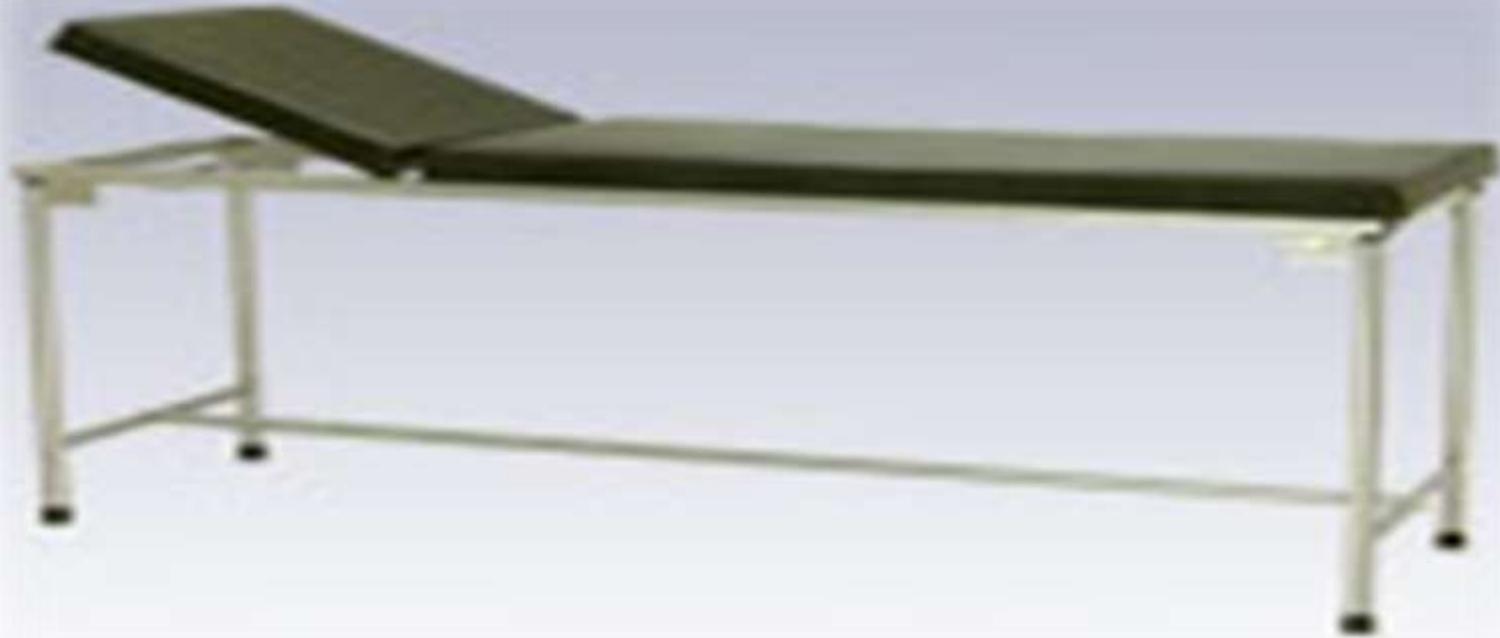

- Ms tubular frame with adjustable nylon cane woven back rest.
- Finish in epoxy powder coated.
- Also available in stainless steel.

INSTRUMENT TROLLEY

- Size: 61 L x 45 W x 81 H cm.
- M.S steel tubing frame with SS shelves and one chrome plated railing.
- Trolley mounted on 5 cm diameter castors.
- Also available in stainless steel.

EXAMINATION COUCH TYPE 1

- Size: 180 L x 51 W x 81 H cm.
- Constructed from Ms rectangular steel tube. Adjustable head rest.
- Top is upholstered and covered with water proof synthetic material.
- Finish in epoxy powder coated.
- Also available in stainless steel.

EXAMINATION COUCH TYPE 2

- Size: 183 L x 51 W x 76 H cm.
- Machine pressed double bent ms sheet top in two sections.
- Head flap adjustable on ratchet.
- Finish in Epoxy powder coated.
- Also available in stainless steel.

OPERATION TABLE

ABOUT THE OPERATION TABLE

- Tabletop is made of strong ms steel framework with SS sheet top.
- The whole top can be tilted to trendelenberg and reverse trendelenberg with help of lever handle.
- Table legs of ERW tubing mounted on 10 cm diameter swiveling castors with two break.

The table is complete with following accessories:

- Chrome plated lithotomic rod and anesthesia screen.
- SS kidney bridge and arm board finish in epoxy powder coated.

STRETCHER WITH TROLLEY

MS

SS

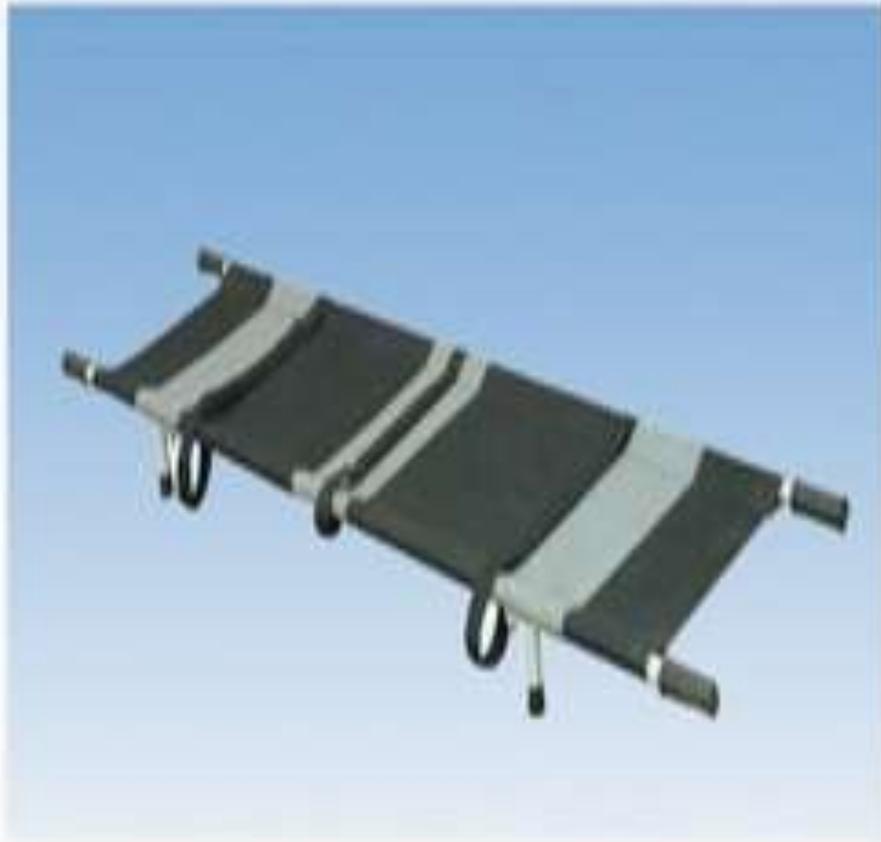

- Available in mild steel and stainless steel.
- Size: 203 L x 56 W x 82 H cm.
- Steel tubing frame work of trolley mounted on 15 cm diameter swivel castors.
- Removable stretcher of CRCA sheet supported on tubular frame.
- Epoxy powder coated finish.

REVOLVING STOOL

- Made from mild steel with stainless steel top.
- Epoxy powder coated finish.
- Stool top diameter 11 and 15 inches.
- Also available in fully stainless steel.
